

### IV Shield

*Helps protect the IV needle and insertion site from impact, abrasion, and mild scratching. May also be used with a Heparin lock. Translucent, ventilated plastic dome allows unobstructed observation. Hypo-allergenic self-adhesive tape on bottom adheres anywhere on patient's body.*

- Disposable.
- Fits children and adults.
- One dozen per package.

**REF 8141** - 3"L x 2 3/4"W (8 cm x 7 cm)

### Application Instructions:

1. Remove paper from the adhesive strips.
2. Locate shield in the appropriate position.
3. Press firmly to attach to skin.

**NOTE:** Heavy hair growth may require shaving.

### To Remove:

Gently pull up on the adhesive and remove the shield.

### Disposal

**⚠️WARNING** Properly dispose of the product per facility's policy for BIOHAZARDOUS materials.

### Storage And Handling

This device is designed for use in normal indoor environments. This device may be stored in ambient warehouse temperatures at normal humidity levels. Avoid excess moisture or high humidity that may damage product materials.
