

The Posey Incontinence Pad is designed for use whenever an incontinent bed pad is needed. The multi-layer construction ensures that the pad will absorb moisture, without penetrating through the backing and onto the patient's bedding. Provides superior absorption and wicking properties, to help protect both the patient's skin and bedding from urine. The 8005A is designed with pockets to fit the 8007 Support Surface. One per package; Case qty. of two.

- REF 8005** Incontinence Pad - 35"W x 82"L (89 cm x 208 cm)
- REF 8005A** Incontinence Pad for Support Surface - 35"W x 82"L (89 cm x 208 cm)

**Application Instructions:**

The Posey Incontinence Pad should be positioned under the patient with the blue side (Fig. 1) facing down. If using inside of the Posey Bed with sheet openings (8000, 8050 only), thread each of the four attached straps through the small green bordered openings on the sides of the enclosure. Attach the securing clips from the mattress compartment of the Posey Bed to the pad (Fig. 2), to help keep the pad in place. Once the pad is in place, check to ensure that the patient cannot become trapped under the pad.

**Laundering Instructions:**

**Storage and Handling**

This device is designed for use in normal indoor environments. This device may be stored in ambient warehouse temperatures at normal humidity levels. Avoid excess moisture or high humidity that may damage product materials.

**Disposal**

**WARNING** Properly dispose of the product per facility's policy for BIOHAZARDOUS materials.
